Parade

Decorated Cake with Fresh Cream and Seasonal Fruit

* The cake in the photo is made with figs.

Comes with a Message Plate

A shortcake made with a light, moist sponge and plenty of seasonal fruit. We created it so that the sponge, made with honey harvested at Kyoto Higuchi Bee Farm in Fushimi, the gently sweet cream made with cane sugar (kibi sugar), and the fruit, which changes with the seasons, come together in perfect balance. It is a cake you can enjoy anew each time the season changes. We hope it becomes part of your memories of a special day, such as an anniversary or birthday with someone dear to you ♪
